About Georgia

Right in the border between Eastern Europe and West Asia lies a small land of brave men that have fought for its independence since the times of the Roman Republic. It's the crossroads of the Caucasus, the Black Sea, Russia, Turkey, and Armenia.

When talking about Georgia, it has the 12th freest economy in the world and is the 7th easiest country to do business. After its dark Communist period, the country achieved broad political agreements to reform its economy and create a truly free economy by improving its infrastructure, reducing corruption creating a favorable tax and regulatory regime that facilitates investment, exports, and doing business in Georgia.

And one of the most benefited sectors of this significant growth and openness is banking.

About Banking in Georgia

Georgia has a stable and modern bank system with low commissions and an attractive tax system. And the fact that most of the banking personnel speak Russian doesn't hurt.

However, the largest benefit is that Georgia has an almost unparalleled level of confidentiality. The country doesn't belong to the CRS, which means they don't automatically exchange financial data of their clients with foreign authorities.

And opening a personal bank account in Georgia is incredibly simple.

All you need is to present your passport and fill a questionnaire. In half an hour, you're good to go.

Seriously.

However, there's a big if for the process to be this simple. You must be physically present to open an account... Generally.

If you want to open an account remotely, you need an authorized representative. And guess what? We are authorized service providers. We can help you open a personal bank account in Georgia in a couple of weeks.

The best of all? You'll be opening an account in a trustworthy jurisdiction that offers you:

Protection from CRS

The most stable
democracy in the region

Friendly environment
for expats and
welcoming atmosphere

Solid online banking

Openness to complex cases such
as Venezuelan and Cuban clients

Pro-business government

Friendly tax regime
