# About Hong Kong

Hong Kong is one of the best-established international financial hubs and business centers in the world.

This small city of just 1,000 sq km and 7.3 million people may not seem as much at a first look. But if you know a bit about the global financial system and China's economy, you know that Hong Kong is a key player.

What's the key to Hong Kong's success? Simple: Simple taxation system with low taxes, almost free port trade, and a robust, reputable, banking system and financial market.

Why is Hong Kong so vital for the world's economy? For two reasons: first, it's China's economic getaway as it's the only place in all mainland China that permits a free flow of capital.

Second, it is one of the freest economies in the world with a reliable financial and legal system.

# About Banking in Hong Kong

We know that if you want your business to go global, one of the musts is having a bank account in Hong Kong.

That's why we work with top-level experts in Hong Kong that have an incredible multidisciplinary team with plenty of experience in corporate and financial services in Hong Kong. They offer a wide array of services, including company incorporation, immigration, investment, and banking.

So, what can our partners do for you? They can help you open a corporate bank account in Hong Kong. They operate with plenty of banks in Hong

Kong meaning they can offer a plethora of options from which you can choose the ones that suit you the best.

And for VIP clients that can make a minimum deposit of \$500K, they offer this service remotely, thanks to our experts' top banking connections.

You read that right, a remote opening for a Hong Kong corporate bank account.

The bank account is multi-currency with online banking services. You can make use of many different currencies, such as USD, EUR, JPY, CNY, AUD, NZD, and HKD.

**Y**ou may think that the process to open a personal or corporate bank account is simple, but there's a gigantic if: You need to be physically present in the bank to open the account.

And to open a corporate account, you need an expert that knows the HK banking system.

And that's where we do our magic.

Our partners know Hong Kong banks. They are up to date with the latest KYC and CDD requirements and have a fantastic network of Hong Kong bankers and experts to offer the best services for you.

They save you a ton of work. Opening a corporate bank account in Hong Kong, even if you're physically present, can take around 28 hours of work. They save you a lot of time in the process by 1) selecting feasible banks for you, 2) preparing personalized applications, and 3) Arranging all supporting documents.

They follow the process. Some service providers limit themselves to just applying and then let the process alone. That's not the case with our partners. They follow the complete process and streamline communication with banks, so you're aware of the progress of your application at every step.
